

Cl@ve or FNMT digital certificate

After choosing digital access, decide which route is realistic for your documents. FNMT is often more direct if you already have a NIE; Cl@ve may ask for support-number details from a physical card such as a TIE.

Step-by-step

- 1 Check whether you already have a NIE and accepted identity documents.
- 2 Choose FNMT if you need to sign documents or submit official applications online.
- 3 Use Cl@ve if you meet the registration requirements and want regular access to public-service portals.
