

European Health Insurance Card

The EHIC is for temporary stays in another EU/EEA country, Switzerland, or the UK under that country's public-system rules. It does not replace travel insurance and it is not the document for moving your residence abroad.

Step-by-step

- 1 Confirm that your right to healthcare in Spain is active before requesting it.
- 2 Request or renew the EHIC through the official Social Security route and check whether you need it only for yourself or also for your dependants.
- 3 If you are travelling very soon and the card may not arrive in time, check whether you need a Provisional Replacement Certificate instead.
